

Our Mission

Everyday Home Care was established with a passionate desire to provide the help that allows aging seniors to safely and comfortably remain in their homes. Families can rest secure knowing that the needs of their loved ones are being met by loving and well trained caregivers.

Dignity & Independence

By providing companionship and assistance with the everyday needs of living, our services allow seniors to feel that their lives continue to have meaning, and that they are not burdening their families.

Peace of Mind

Our family-owned service hires only caregivers who are screened, background checked, bonded, insured and fully trained. Most have over five years of experience, and most of our referrals come from happy clients.

Helping Seniors Thrive

We'll Be There When You Need Us

Everyday Home Care has a client-centered approach to caring for older adults. One of our care coordinators will visit to do a needs assessment. As you and your family share your goals, we will match you with one of our professional caregivers.

We will be there for you 24 hours of everyday. In addition to Homemaking, Personal and Companion care, when the situation calls for it we can also provide Live-in, Overnight and Respite Care.

Client-Centered Care

Here are just a few of the activities of daily living that we can help with to make your senior's life more comfortable and rewarding:

- ♦ Morning wake up
- ♦ Help with dressing
- ♦ Medication reminders
- ♦ Transfers and walking
- ♦ Bathing & toileting
- ♦ Incontinence Management
- ♦ Evening tuck in

An Issue of Trust

Everyday Home Care is a family-run business and we treat our caregivers and our clients like family. Our in-home needs assessment evaluates your requirements and allows you to meet our staff. All our caregivers are fully trained, background checked, insured and bonded.

Health care and senior care professionals rely on Everyday Home Care to assist with their patients, residents, and clients. We can work with seniors in assisted and independent living communities.

We serve seniors in Johnson, Wyandotte, Miami, Jefferson and Leavenworth counties in Kansas, and Jackson county in Missouri. For more information, visit our website at www.everydayhomecarekc.com. To arrange a free in-home needs assessment, call us at 913-548-2500.
